

Early Childhood Intervention Australia (Queensland Chapter) Inc

Do you :

- Teach and have children with **challenging behaviours in your group?** OR
- Feel overwhelmed** by the behavioural needs in your group? OR
- Wish you could get through a group time **without negative interruptions....**

Then this PD is for you

Positive Reinforcement: how to make it work

This practical workshop explores the pros and cons of positive reinforcement, using real examples and drawing on hands-on experience.

Participants are introduced to a range of ideas that effectively encourage desired behavior, and answers questions like “Shouldn’t kids just behave?” and “Shouldn’t children this age know what is expected of them?”.

This workshop provides practical teaching strategies including resources to help you manage distribution of praise and rewards, how to improve results based on your effective positive reinforcement and ideas for public recognition.

Circle Time: a framework for success

Circle Time is a pedagogical approach proven to develop social/emotional skills, positive behaviour, speaking and listening skills and school connectedness.

This workshop will introduce the objectives of Circle Time and provide effective tools and rules to help make your Circle Time more effective and rewarding.

Information includes activities and problem solving tips, detailed information on managing challenging behaviour, and an outline for a possible implementation plan.

Circle Time has been shown to build resilience, self-esteem, mutual respect, foster empathy, reduce bullying and assist in the development of relationships, and this workshop will help you use Circle Time to provide benefits for all participants.

Both Sessions presented by Felicity Day and Marilyn James - *Behavior Support Consultants, EQ*
